

# 20 EASY WAYS TO SAVE WATER

## BATHROOM

Close taps properly,  
Saves up to 900/month.

Turn the tap off when  
washing hands, face,  
brushing teeth and shaving.  
Saves up to 20/month.

Semi-fill your basin for  
washing face/shaving.  
Saves up to 45/month.

Use a cup of water  
when brushing teeth.

Take a 2-5 minute shower,  
instead of a bath. A 5min  
shower uses half the water  
of a half-filled bath.

Place a bucket in the  
shower to catch any  
excess water.

Only flush toilets  
when necessary.

Fix leaking toilets.  
Saves up to 22,000/month.

Use low-flow showerheads,  
dual-flush toilets and  
water-efficient appliances.

Use "grey water" - from baths,  
washing machines & other safe  
sources - to flush your toilet.

## KITCHEN

Fill kettles & pots with just  
enough water for needs.

Insulate hot water pipes.

Fill a container while waiting for  
water from hot tap to heat. Use  
this to fill your kettle, etc.

## OUTDOORS

Plant water-wise  
indigenous plants.

Collect rainwater for use  
in garden & car washing.

Refrain from watering your lawn  
during water shortages.

Use a broom instead of a  
hosepipe when cleaning  
driveways/patios.

Use a bucket, not a hose,  
to wash your car.  
Saves up to 300/wash.

Cover swimming pools to  
reduce evaporation.

Don't fill up or backwash  
your pool during severe  
drought.
